

Brian McLaren

Often cited as one of the most influential Christian leaders in the West, Brian McLaren will be speaking on his upcoming book, 'The Great Spiritual Migration: Re-imagining a Faith that will Save Us'

The Message

Brian McLaren calls for the era of a change averse, self-protecting Church to end. He invites open-minded Christians to undertake the task of shifting the faith to be more in sync with its founder. He asks what it would mean for Christians to rediscover their faith - not as a system of beliefs, but as a just and generous way of life.
