

We Sing a Song of Light divine

(Words Monty Lynds 2004 Tune Kingsfold)

1. We sing our song of light divine

Now born to all the earth.

To every colour, every race

To poor and noble birth.

To those of all and varied paths

With different ways to God.

The gifts of love to humankind

Are on the road He trod.

2. The light of Christ to all revealed

Shines out with radiance bright.

Darkness and sorrows can be healed

When day returns from night.

God's song is played by all who care

Jesus reveals the dream.

For love is radiant all around

And shows us all God's scheme.

3. Your servant could depart in peace

By him the truth was known.

But humankind today must learn

To make the dream its own.

In different ways we find your love

That change and time reveal

But found in Jesus we declare

The light of love can heal.
